

## Marquette-Alger County Sidebar Survey Report 2008

The Great Lakes Center for Youth Development Sidebar Survey was developed to provide supplementary information to the Profiles of Student Life: Attitudes and Behaviors Survey on key youth environment issues. The information is used by schools, community agencies and organizations for planning and evaluating programs and services. The 2008 Sidebar Survey topics include: Future Career Plans; Drug, Alcohol, and Tobacco Use and Accessibility; Perception of Use; and Nutrition. (Questions may have been changed from previous survey editions to provide the most accurate depiction of the youth experience to date.)

This Sidebar Survey was given to 1770 middle and high school students in Marquette and Alger Counties in the fall of 2008. Of these students, 49% were male and 51% were female. The number of students and characteristics were as follows:

		<b>Number of Youth</b>	<b>Percent</b>
<b>Total Sample</b>		1770	100%
<b>Gender</b>	Male	849	49%
